

nex20 : #ConnectingTomorrow

It has been 20 years since the founding of swissnex in Boston. Driving this adventure was a vision for the future of Switzerland and its formidable innovation potential. Today, swissnex represents an unparalleled platform for connecting tomorrow: A global network which, through the exchange of knowledge, ideas, and talent, is dedicated to unlock the imagination needed to create a different world.

For its 20th anniversary, the swissnex Network engages researchers, entrepreneurs, and visionary leaders to imagine the role of Switzerland on the global stage in 2040.

Called nex20, the core of the program consists of various activities in different formats across five themes: #ConnectingTomorrow, #WorkingTomorrow, #LivingTomorrow, #MeetingTomorrow and #LearningTomorrow.

nex20 Ticino: #LivingTomorrow

4 DECEMBER 2020

8.30 - 10.00 (BRAZIL)

12.30 - 14.00 (SWITZERLAND)

20.30 - 22.00 (KOREA)

The event will feature a discussion with strategic partners and experts on how we will live in the future, with a focus on architecture.

How are Swiss innovation and scientific research paving the way for our future living?
What are the outlooks for Switzerland and the world in 20 years from now?
What challenges will we face and how are we preparing ourselves for them?
What role can the swissnex Network play in future-proofing its stakeholders?

agenda

5min	Opening remarks
40min	Panel 1: Collective living
40min	Panel 2: Sustainable living
5min	Closing remarks
